General Science. By LEWIS ELHUFF. Boston: D. C. Heath and Co. Pp. 433.

The author says that "This book is intended to offer a scientific explanation for the many and varied experiences which pupils of high school age have had and to create a desire for further knowledge of scientific subjects." It seems well fitted to do both of these things, as it covers quite thoroughly the daily experiences that have a scientific foundation, and does it in an interesting way. An excellent feature is the emphasis placed on health and preventive methods.

The Automobilist's Pocket Companion and Expense Record. Arranged by VICTOR W. PAGE, M.S.A.E. New York City: The Norman W. Henley Publishing Co. Pp. 169. \$1.00.

This book is not only valuable as a convenient cost record but contains much information of value to motorists. Includes a condensed digest of auto laws of all States, a lubrication schedule, hints for care of storage battery and care of tires, location of road troubles in all parts of the car, anti-freezing solutions, horse-power table, driving hints and many useful tables and recipes of interest to all motorists. Not a technical book in any sense of the word, just a collection of practical facts in simple language for the everyday motorist.

It will enable you to keep track of all your expenses. Convenient ruled pages eliminate all bookkeeping except entering a few figures daily. Shows the miles covered during each day of the year, the fuel used and cost of repairs. Tells if your tires are standing up to their guarantee, which make of tire gives best service, etc.

It answers questions that every motorist asks about car driving or care. If you have an automobile you will want one. Convenient pocket size, handsomely bound in limp leatherette cover.

The Principles of Health-Control. By F. M. WALTERS. Boston: D. C. Heath and Company. Pp. 476. \$—.

This book differs from the usual work on hygiene chiefly in the emphasis that is placed upon corrective work.

It will be found useful not only as a text for classes but for individuals who desire to conserve their health and be more effective in their work.
